EDUCATION

Chitkara University

Bachelor of Engineering in Computer Science — GPA: 9.49/10

Punjab, India

Aug 2024 – Jun 2028

EXPERIENCE

Software Development Engineer Intern

Dec 2025 – Mar 2026

BitwiseLearn

Remote

- Built backend infrastructure for a multi-tenant **E-learning platform** using **Role-Based Access Control (RBAC)**, supporting secure access across five user roles.
- Developed **40+ REST APIs** for course management, enrollment workflows, assessments, and learning operations using **Node.js, Express.js, and MongoDB**.
- Integrated a sandboxed code execution engine using the **Piston API**, enabling secure compilation and runtime testing across **17 programming languages**.

PROJECTS

Epiphany – Learning Management System — Next.js, Express.js, Bun, JWT, Piston API

- Engineered an LMS with **5 RBAC roles** supporting courses, assignments, announcements, and assessments.
- Integrated a secure online compiler supporting **17 programming languages** using the **Piston API**.
- Designed a proctored examination system with coding questions, MCQs, JWT authentication, and REST APIs.

Commit-AI – AI-Powered Git Workflow Assistant — TypeScript, Node.js, OpenAI, Octokit, simple-git

- Developed an AI-powered CLI with **7 Git automation commands** for staging, commits, branches, pushes, and PR creation.
- Integrated **simple-git** and the GitHub REST API to automate repository workflows end-to-end.
- Generated conventional commits, branch names, PR titles, and descriptions using multiple LLM providers.

Trackio – Collaborative Progress Tracking Platform — React, TypeScript, Vite, Tailwind CSS

- Built a collaborative platform where users create groups to track learning progress and coding streaks together.
- Developed **5+ analytics modules** including leaderboards, progress charts, streak tracking, dashboards, and activity insights.
- Integrated an AI assistant for contextual guidance and platform-wide user support.

TECHNICAL SKILLS

Languages: Java, JavaScript, TypeScript

Backend: Node.js, Express.js, REST APIs, Prisma

Frontend: React.js, Next.js, TypeScript, Three.js

Databases: MongoDB, MySQL, Redis

DevOps Cloud: Docker, AWS

Tools: Git, GitHub Actions, npm, Linux

Core CS: Data Structures Algorithms, Operating Systems, Computer Networks, DBMS

HONORS AND ACHIEVEMENTS

- Head of DSA Programming at **Open Source Chandigarh**, mentoring **10+ students** in algorithms and competitive programming.
- Solved **500+ DSA problems** across LeetCode, CodeChef, and GeeksforGeeks.
- Active open-source contributor to **Hacktoberfest** and **GirlScript Summer of Code**.
