EDUCATION

Chitkara University

Bachelor of Engineering in Computer Science; GPA: 9.49

Punjab, India

Aug 2024 – May 2028

EXPERIENCE

Software Development Engineer Intern

Dec 2025 – Mar 2026

BitwiseLearn

Remote

- Built backend infrastructure for a multi-tenant **E-learning platform** using **Role-Based Access Control (RBAC)**, supporting secure access across five user roles.
- Developed **40+ REST APIs** for course management, enrollment workflows, assessments, and learning operations using **Node.js, Express.js, and MongoDB**.
- Integrated a sandboxed code execution engine using the **Piston API**, enabling secure compilation and runtime testing across **17 programming languages**.

PROJECTS

Persephone – Technical Interview Platform — *Next.js, Node.js, Socket.IO, Redis*

- Developed a full-stack technical interview platform with **video conferencing, collaborative coding, and real-time chat**, supporting **50+ interview sessions**.
- Engineered distributed real-time synchronization using **Socket.IO** and **Redis**, enabling **sub-100ms state updates** across participants.
- Implemented an **AI-powered resume parser and ATS scoring system** that extracts candidate skills and generates compatibility scores for technical screening.

Commit-AI – AI-Powered Git Workflow Assistant — *TypeScript, Node.js, OpenRouter, Octokit, simple-git*

- Published an AI-powered Git workflow CLI on npm with **100+ downloads**, automating repository analysis, commits, branching, pushes, and Pull Request creation from the terminal.
- Integrated **Git internals** and the **GitHub REST API** to automate **7 Git operations**, including status inspection, branch creation, branch switching, commits, pushes, and PR generation.
- Built multi-model AI support for **OpenAI, Gemini, and OpenRouter**, generating conventional commit messages, branch names, PR titles, and detailed PR descriptions from repository diffs.

TECHNICAL SKILLS

Languages: Java, JavaScript, TypeScript

Backend: Node.js, Express.js, REST APIs, Prisma

Frontend: React.js, Next.js

Databases: MongoDB, MySQL, Redis

DevOps Cloud: Docker, AWS

Tools: Git, GitHub Actions, npm, Linux

Core CS: Data Structures Algorithms, Operating Systems, Computer Networks, DBMS

HONORS AND ACHIEVEMENTS

- Head of DSA Programming at **Open Source Chandigarh**, mentoring **10+ students** in algorithms and competitive programming.
- Solved **700+ DSA problems** across LeetCode, CodeChef, and GeeksforGeeks.
- Active open-source contributor to **Hacktoberfest** and **GirlScript Summer of Code**.
